1. Open a new Excel worksheet.
2. Save your work as:
period-assignment name-your name
3. Copy the data into the cells so your worksheet looks like the sample to the right.
4. Select cell **A4**. Write a formula that will add the cells **A2** and **A3**.
5. Select cell **B4**. Write a formula that will add the cells **B2** and **B3**.
6. Select cell **C4**. Write a formula that will subtract the cells **C2** minus **C3**.
7. Select cell **D4**. Write a formula that will subtract the cells **D2** minus **D3**.
8. Select cell **E4**. Write a formula that will multiply the cells **E2** and **E3**.
9. Select cell **F4**. Write a formula that will multiply the cells **F2** and **F3**.
10. Select cell **G4**. Write a formula that will divide the cells **G2** by **G3**.
11. Select cell **H4**. Write a formula that will divide the cells **H2** by **H3**.
12. Select cell **A8**. Write a formula that will add the cells **A6** and **A7**.
13. Select cell **B8**. Write a formula that will add the cells **B6** and **B7**.
14. Select cell **C8**. Write a formula that will subtract the cells **C6** minus **C7**.
15. Select cell **D8**. Write a formula that will subtract the cells **D6** minus **D7**.
16. Select cell **E8**. Write a formula that will multiply the cells **E6** and **E7**.
17. Select cell **F8**. Write a formula that will multiply the cells **F6** and **F7**.
18. Select cell **G8**. Write a formula that will divide the cells **G6** by **G7**.
19. Select cell **H8**. Write a formula that will divide the cells **H6** by **H7**.
20. Select cell **A18**. Write a formula that will add all the cells with **RED** numbers.
21. Select cell **A19**. Write a formula that will add all the cells with **GREEN** numbers.
22. Select cell **A20**. Write a formula that will add all the cells with **BLUE** numbers.
23. Select cell **A21**. Write a formula that will add all the cells with **BLACK** numbers.
